

Student survey 2020

Our students' experience whilst at their UTC matters most to us. Every year, Baker Dearing conducts a student survey of Year 13 leavers across the UTC programme to assess this experience and to learn how we can make it even better.

This year, the survey took place under very different circumstances. However, the responses we received from Year 13 students, during a difficult and uncertain period for all of them, are heart-warming, and serve as a timely reminder as to the value of a UTC education. These are some of the highlights...

"Best decision you will ever make to develop skills and confidence as well as knowledge about the job sector and industries within the area."

UTC Year 13 student

"To be honest my UTC is the best place to study if you are looking for future career and good education."

UTC Year 13 student

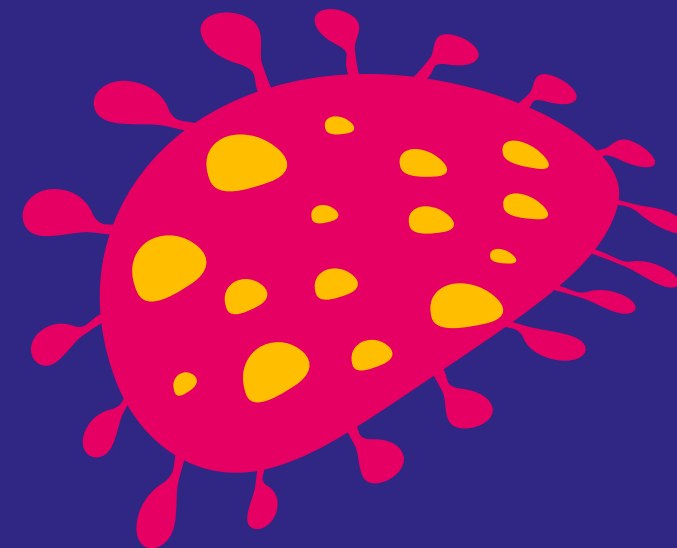

"It has been a brilliant experience and anyone who goes there will experience the same."

UTC Year 13 student

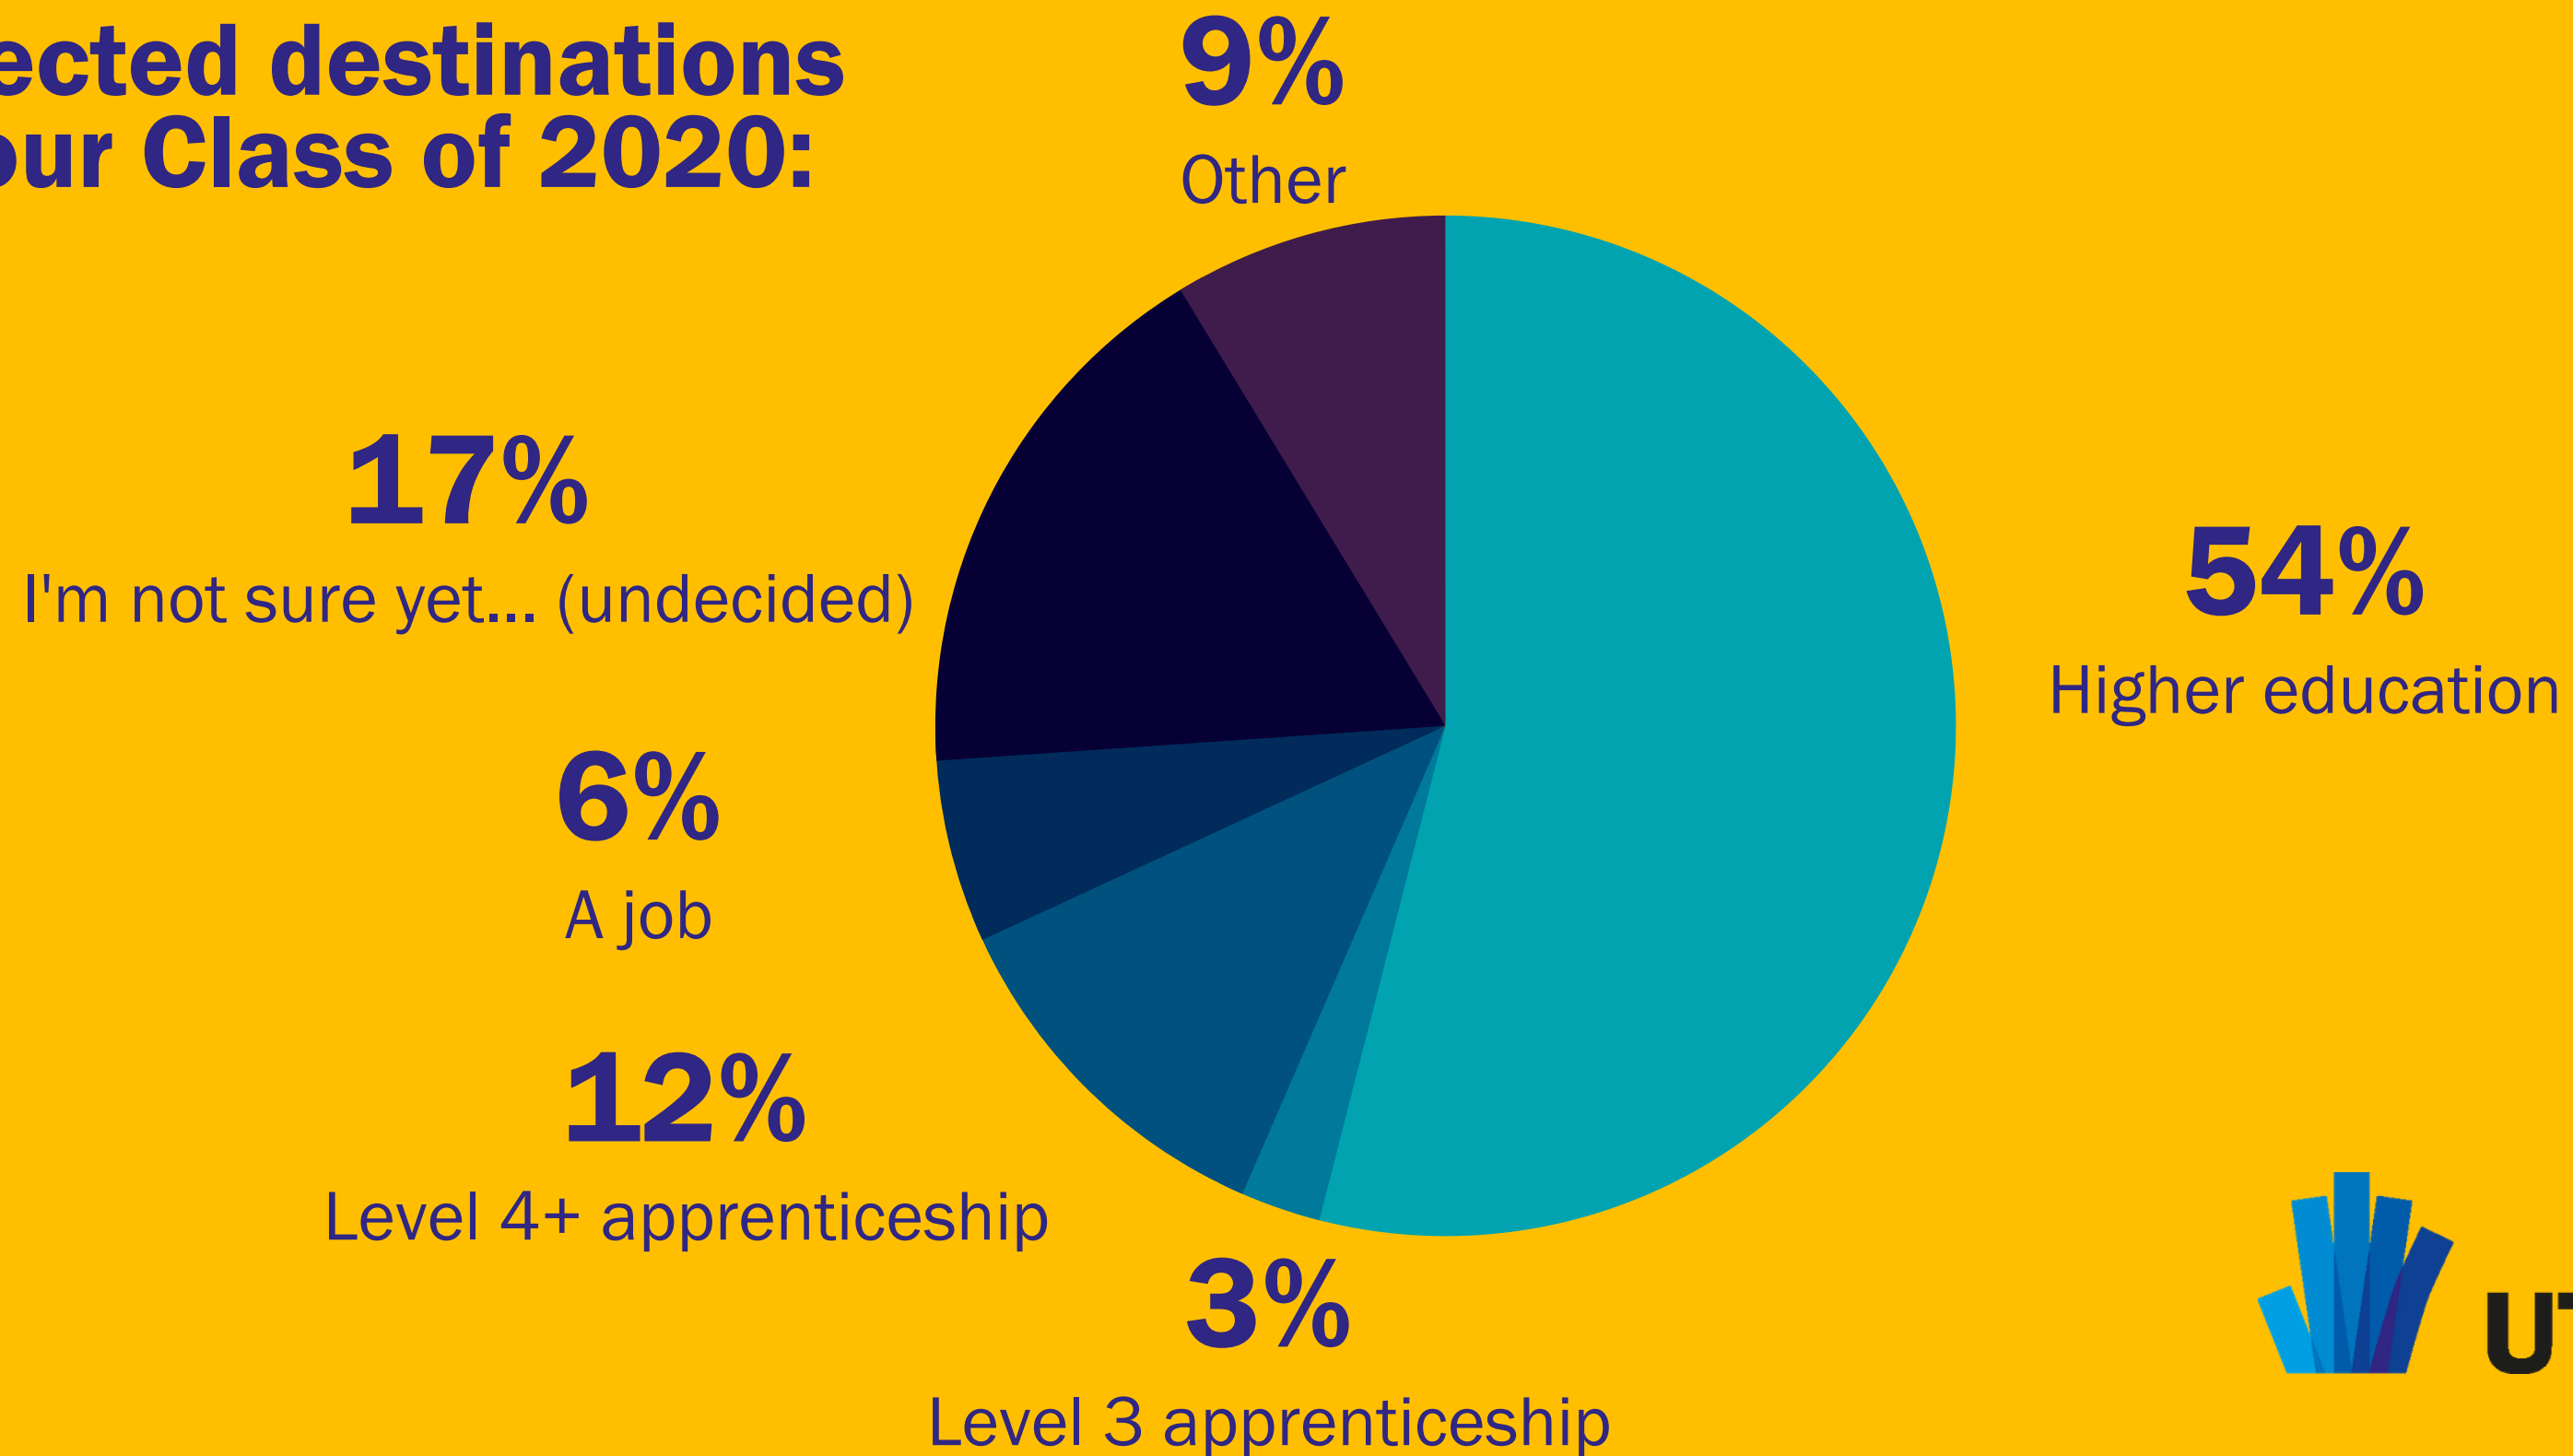

61% of current Year 13s report that their parents are concerned for their career prospects as a result of the Covid-19 pandemic.

59% say that they would spend another year at their UTC if it gave them the right qualifications to progress in their career...
